Techjays Originals

Invited Philip Samuelraj Ananthu Vijayan Aparna Pillai

Attachments Techjays Originals

Meeting records Transcript

Summary

Creative trailer direction and technological infrastructure planning were finalized for upcoming film production via strategic vision.

Trailer Visuals and Narrative
Creative feedback emphasized cinematic framing, sequential narrative structure, and realistic environmental settings for the trailer. Visual adjustments were requested to ensure character consistency and thematic alignment.

Marketing and Technical Strategy
The team decided to adopt a tiered voice-over strategy and approved the transition to the cost-effective Max software plan. This plan sufficiently supports current production capacity requirements.

Industry Disruption and Operations
The discussion highlighted a shift toward democratizing filmmaking through artificial intelligence to bypass traditional industry gatekeeping. Passport documentation for upcoming project travel was confirmed as underway.

Decisions

Aligned

- **Flashbacks removed from trailer** The trailer will be structured sequentially, with the use of flashbacks explicitly removed.
- **Church consistency in scenes** The same church location will be used consistently across all relevant scenes to maintain visual and narrative continuity.
- **Character birth year set to 1976** The main character's birth year is set to 1976, ensuring the character remains appropriately young and charming rather than overly aged in the jail timeline.
- **Voice-over strategy update** The project will adopt a new voice-over strategy, allowing for experimentation with multiple versions rather than the previous iteration.
- **Hicksfield plan retention** The team will continue using the Hicksfield individual (Ultra/Max) plan instead of the business plan to prioritize higher credit availability.

We've **updated the Decisions section** using your feedback.

Let us know what you think: Helpful or Not Helpful

Next steps

- ☐ [Ananthu Vijayan] Remove Plot Lines: Remove all plot line explanations and descriptions from the trailer.
- ☐ [Ananthu Vijayan] Remove Flashbacks: Eliminate all flashback sequences to maintain a strictly sequential trailer narrative.
- ☐ [Ananthu Vijayan] Redesign Island: Modify the island setting to look more realistic by adding a beach and reducing crowding.

- [ ] [Ananthu Vijayan] Update Church: Recreate the church scene to be the same location as the wedding and position it by the seaside.
- [ ] [Ananthu Vijayan] Update Hair: Update the lead character to have more hair to achieve a balanced look of charm and darkness.
- [ ] [Ananthu Vijayan] Change Voiceover: Replace the existing voiceover with new recordings that match the sequential trailer structure.
- [ ] [Ananthu Vijayan] Adjust Age: Adjust the character age and birth year to 1976 to ensure the timeline matches the story.
- [ ] [Ananthu Vijayan, Ananthu's brother] Get Passports: Complete the passport application process.

Details

Did the screenshots in this section make your notes better or worse?

- **Trailer Launch and Creative Feedback**: Philip Samuelraj and Ananthu Vijayan discussed targeting "Onen" for the upcoming trailer launch. Philip Samuelraj provided specific creative feedback, suggesting that scenes should appear more cinematic rather than just good, and requested that certain observational shots be framed from a top-down perspective to appear casual rather than secretive (00:00:14).

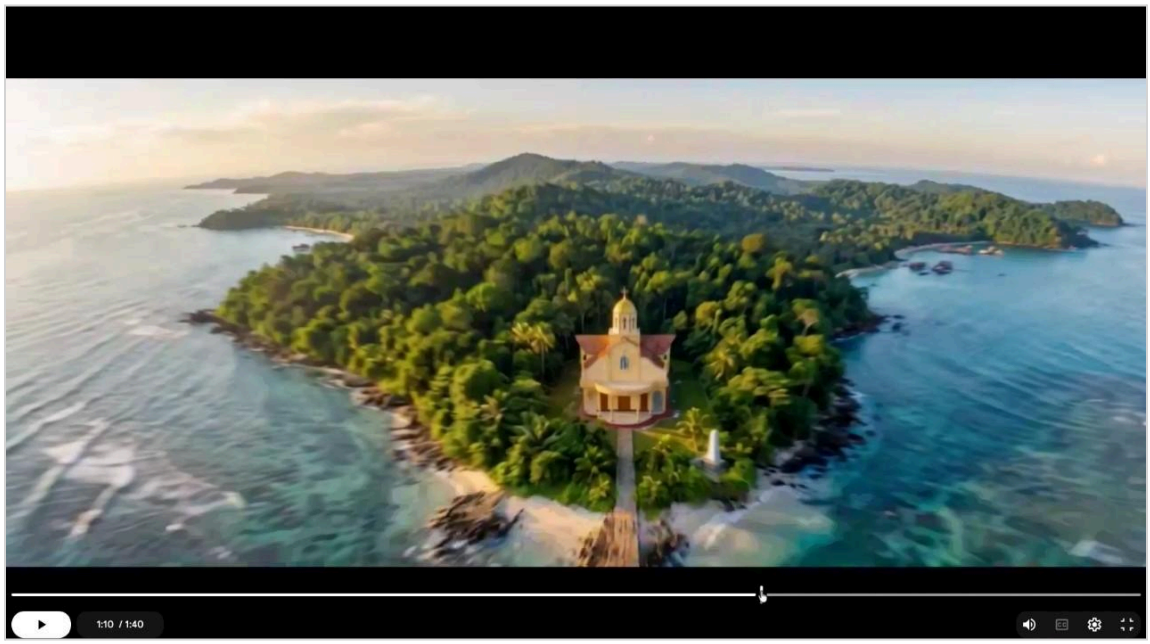

- **Trailer Scene Composition and Plot Lines**: Philip Samuelraj advised that characters should be depicted holding an umbrella during rainy scenes to maintain a natural appearance. Furthermore, Philip Samuelraj instructed the removal of specific plot line elements from the trailer to maintain mystery and recommended avoiding the use of flashback sequences, favoring a sequential narrative flow instead (00:05:27).

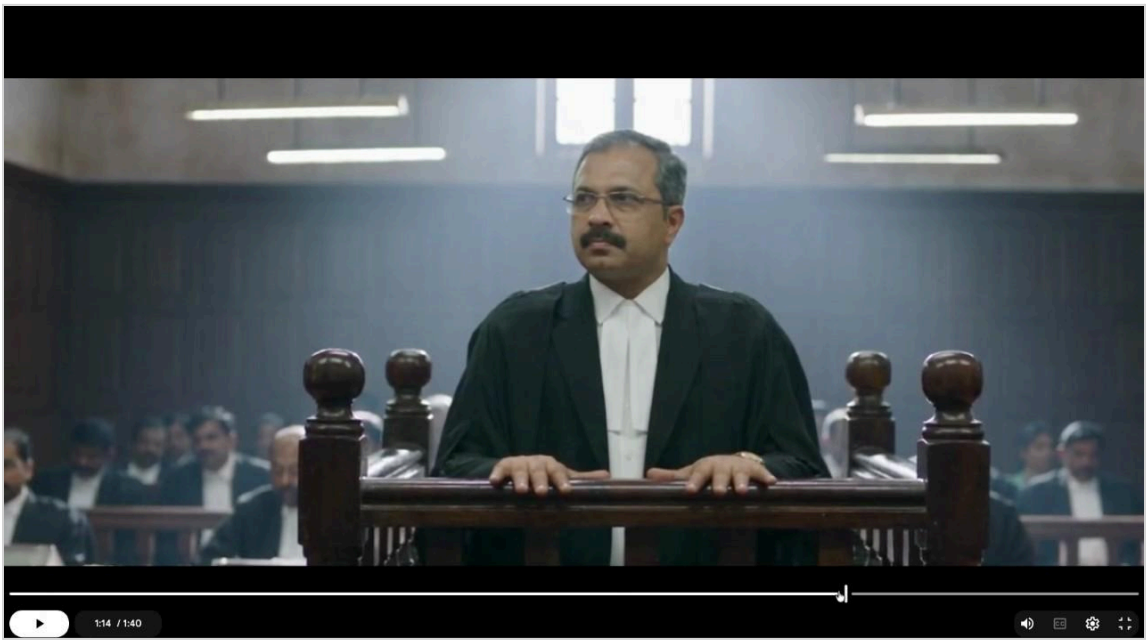

- **Visual Enhancements and Environmental Setting**: Philip Samuelraj discussed the visual aesthetics of the film, noting that the island scenery should be more realistic, including a beach area, rather than overly dense and cinematic.

Additionally, Philip Samuelraj emphasized the importance of location consistency, specifically stating that the church, which serves as a central narrative point, must be consistent throughout the film and situated by the seaside to align with the story's recurring themes (00:07:44).

- **Character Design and Narrative Timeline**: Philip Samuelraj requested adjustments to the hero's appearance, specifically asking for more hair to balance the character's charm and dark traits. They discussed establishing the character's birth year around 1976 to maintain a consistent age relative to the 1998 wedding and 2004 tsunami timeline. Philip Samuelraj further suggested simplifying the trailer structure by removing revenge-oriented shots and closing with the character blowing out a candle (00:11:36).

- **Voice-over Strategy**: Ananthu Vijayan and Philip Samuelraj agreed that the current voice-over for the trailer requires modification. Philip Samuelraj proposed several approaches, such as utilizing a happy voice-over at the beginning, a sad tone for jail scenes, and a calm, calculated voice for the conclusion, or potentially creating multiple trailer versions with different voice-over styles (00:16:54).
- **Casting and Promotional Likeness**: Philip Samuelraj noted that discussions with Aparna indicated a potential for involving established actors for promotional purposes. The strategy involves using the likeness of real actors for publicity, which may increase engagement, and Philip Samuelraj confirmed that replacing characters within the existing prompts would be feasible if they successfully onboard such talent (00:17:56).
- **Software and Credit Management**: Ananthu Vijayan confirmed that they are utilizing the Hicksfield "Ultra" (now "Max") plan, explaining that it is more cost-effective for their needs, offering 6,000 credits for $200 compared to the business plan's requirement of five seats at $1,000. Philip Samuelraj approved of this arrangement, noting that as long as they are not limited by the current capacity to generate eight videos in parallel, the plan is sufficient (00:19:05).
- **Industry Disruption and Vision**: Philip Samuelraj discussed the potential for public backlash against AI-generated content but argued that this represents an

opportunity to democratize filmmaking and bypass traditional industry gatekeeping, nepotism, and worship culture. They expressed a vision of creating a studio that leverages AI to allow storytellers without traditional connections or large budgets to create and distribute content directly via OTT platforms, ultimately prioritizing meritocracy over the established norms of the film industry (00:22:29).

- **Passport Status**: Philip Samuelraj concluded the meeting by confirming that the passport application process for Ananthu Vijayan and their brother is underway, noting that this is a necessary step for their upcoming project launch (00:31:15).

Techjays Originals - Transcript

00:00:14

Ananthu Vijayan: All right.

Philip Samuelraj: Hey,

Ananthu Vijayan: Yeah.

Philip Samuelraj: how are you doing?

Ananthu Vijayan: Yeah. I'm h Yeah.

Philip Samuelraj: Looks like you are up late in the night.

Ananthu Vijayan: Like yesterday in the morning, we had one hospital appointment for mother. So we couldn't work.

Philip Samuelraj: Okay.

Ananthu Vijayan: So we thought of sitting.

Philip Samuelraj: Okay, no worries. Let me actually play and give some comments. Um I was talking to Aparna and we were thinking like maybe we should target um Onen

Ananthu Vijayan: Um

Philip Samuelraj: for trailer launch. Okay,

Ananthu Vijayan: yeah.

Philip Samuelraj: let me play and just give feedback.

Philip Samuelraj's Presentation: I don't know.

Philip Samuelraj: say um what what is the reason for getting this kind of a paper?

Ananthu Vijayan: Uh that's actually water like one of the prison.

Philip Samuelraj: Oh, the wall of the prison. Okay. Okay. Okay.

Philip Samuelraj's Presentation: Cuddle in a snake in

Ananthu Vijayan: Yeah.

Philip Samuelraj: I'm thinking even inspired by the count of uh Monte Gusta by

Philip Samuelraj's Presentation: the

00:04:19

Philip Samuelraj: um inspired just from the novel is not inspired by the count of mist by

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Alexander Dum the mas we can have it at the end of the trailer okay just end of

Ananthu Vijayan: Ah,

Philip Samuelraj's Presentation: Alagalar.

Philip Samuelraj: that let's do Yes,

Ananthu Vijayan: okay.

Philip Samuelraj: this is

Philip Samuelraj's Presentation: Good pin in the

Philip Samuelraj: good.

Philip Samuelraj's Presentation: there.

Philip Samuelraj: This is all good. Ah, this scene right last time the background scene, the white uh doi or all of that looked really good.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Last time that looked very good. This whole scene looked good. Now uh this looks very cinematic rather than good. You understand?

Ananthu Vijayan: Okay. Okay. Yeah.

Philip Samuelraj: And even when I say they should be looking from far off,

Ananthu Vijayan: Yeah.

Philip Samuelraj: it should not look like they're hiding and seeing.

Ananthu Vijayan: Mhm.

Philip SamuelRaj: It should be like a casual look from maybe top to down.

Ananthu Vijayan: H.

Philip SamuelRaj: You understand?

00:05:27

Ananthu Vijayan: Okay. Okay.

Philip SamuelRaj: Um, and they should be holding like an umbrella if it is raining.

Ananthu Vijayan: Ah.

Philip SamuelRaj: You get uh that, right? And it should be pretty casual.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: They're like say maybe high up.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: Uh, and that scene actually looked very good even with the mundo and all of that. Uh, it was actually white. I think it looked very very good rather than this one. This looks very uh cliche like you know.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: Got it.

Ananthu Vijayan: Yeah.

Philip SamuelRaj's Presentation: Mari.

Philip SamuelRaj: the even the looking for them should look very casual. They're like, "Hey, holding an umbrella. I'm just just looking." And we don't need to give the plot line also

Ananthu Vijayan: Okay.

Philip SamuelRaj: here. One other thing is I want don't want to give the plot line. Uh even that one love, one letter. Huh?

Ananthu Vijayan: H.

Philip SamuelRaj: Let's not remove those plot lines.

Ananthu Vijayan: Okay.

Philip Samuelraj: Another is um this what what casting do you have here for the uh uh hero

00:06:39

Ananthu Vijayan: Uh I think it's normal Christian wedding costume.

Philip Samuelraj: with this this scene is going to be interesting. So let's make sure you think about it.

Ananthu Vijayan: Okay.

Philip Samuelraj: Okay.

Ananthu Vijayan: Okay.

Philip Samuelraj's Presentation: Have it in there.

Philip Samuelraj: Okay. This is okay. And oh, there's a part in the trailer again. Another thing is in the trailer.

Ananthu Vijayan: H.

Philip Samuelraj: Let's not um have uh a flashback of sorts. Okay,

Ananthu Vijayan: Okay.

Philip Samuelraj: this is okay. And uh ah here's the other part. After this the sequence after the arrest why why why are you showing this

Ananthu Vijayan: H

Philip Samuelraj: part?

Ananthu Vijayan: like this was full of uh flashback kind of thing. So he's thinking from the jail.

Philip Samuelraj: Uh yeah uh but trailer no flashback is needed.

Ananthu Vijayan: Okay.

Philip Samuelraj: Okay even this is not needed.

Ananthu Vijayan: Okay.

Philip Samuelraj: Straight from this you can jump to this maybe because she's like by herself or something like that.

Ananthu Vijayan: Okay.

Philip Samuelraj: then go straight to the jail.

00:07:44

Philip Samuelraj: Even this scene can be put earlier. Okay. Another thing is you look at the size of the guy jumping in right here. This video if you look at it, this is cool.

Philip Samuelraj's Presentation: Heat.

Ananthu Vijayan: H.

Philip Samuelraj: Uh this guy looks very big. H you get it? This guy looks very big.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Okay. Okay. This this one is fine.

Philip Samuelraj's Presentation: Speech.

Philip Samuelraj: Even this is this uh learning is very good. Just in reimagine this um island this I wanted feedback your thoughts. You think this is this this this island right?

Ananthu Vijayan: H.

Philip Samuelraj: It's looking too cinematic.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: The greenery and all is fine, but that should be slightly more realistic.

Ananthu Vijayan: Okay.

Philip Samuelraj: Okay.

Ananthu Vijayan: Okay.

Philip Samuelraj: Too c, you know, too thick and too cinematic. The island should also have like a,

Ananthu Vijayan: Okay.

Philip Samuelraj: you know, a bit more of a uh beach and slightly less crowding uh here right around.

00:09:06

Philip Samuelraj: Okay. And it's much better. Um uh this is so cool. Okay. The jail tsunami is this is this how a jail will be sub jail in

Ananthu Vijayan: Huh. Basically,

Philip Samuelraj: the pend.

Ananthu Vijayan: it will have the place name also like subject.

Philip Samuelraj: Ah,

Ananthu Vijayan: Subject.

Philip Samuelraj: exactly something like that, right? We'll but we can think about it. Okay, something like that. This is cool.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Um,

Philip Samuelraj's Presentation: and

Philip Samuelraj: uh, here this is what I was thinking. Um,

Philip Samuelraj's Presentation: go.

Philip Samuelraj: I want this a bit circular. It should be the same

Ananthu Vijayan: Okay.

Philip Samuelraj: church.

Ananthu Vijayan: Mhm.

Philip Samuelraj: Uh where this this it should be the same church.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: You understand?

Ananthu Vijayan: Yeah. Yeah.

Philip Samuelraj: This church should be the same church where he comes because that's the centerpiece.

Ananthu Vijayan: Huh.

Philip Samuelraj: And even that church uh can can you put it by the seaside?

00:10:19

Philip Samuelraj: Maybe there's a road but then the seaside the steps you know there's the sea sea is always so a few things in the story right the sea is a constant right the sea plays a major part in the is a constant the church is coming the same church coming back revisiting all of that should be um what you call it uh the same places so it should take people to the to that particular

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: memory.

Ananthu Vijayan: Uh I think in there is one real church which faces the sea. It's we can Yeah.

Philip Samuelraj: Exactly. Let's actually take that then take inspiration from that.

Ananthu Vijayan: Yeah.

Philip Samuelraj: It should be the same church where the wedding was happening where this is happening. Okay. Um another part is uh with this character right give me more hair man I have more hair you see um uh everything

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: is good I think even with the I think it's actual but here when I saw look there's no hair at all I have

00:11:36

Ananthu Vijayan: Okay.

Philip Samuelraj: hair because this

Ananthu Vijayan: Okay.

Philip Samuelraj: now when it is this shape It looks almost very villainic. I want that blend of, you know, that charm uh and the um uh what you call it and the darkness. Huh?

Ananthu Vijayan: Hm. M.

Philip Samuelraj: This is very even the other part that I was thinking is maybe for the trailer we skip all of the re revenge shots and all of that.

Ananthu Vijayan: Okay.

Philip Samuelraj: It can be just this the initial part some jail part and then

Ananthu Vijayan: Okay.

Philip Samuelraj: this and then you can finish off with it can be just one and a half like just the same you know this part. Hey, and then saying something or looking up. Looking up, maybe even blowing that candle off or something like that. Okay. And then coming in.

Ananthu Vijayan: Okay.

Philip Samuelraj: What does this mean in the name? Sure.

Ananthu Vijayan: Uh means like depth of like depth of the sea something like that.

Philip Samuelraj: I like that.

00:12:48

Philip Samuelraj: Deeper the one, the deeper. Deeper. The deeper it doesn't. Deeper the wound, deeper the vengeance or something

Ananthu Vijayan: Okay.

Philip Samuelraj: he can experiment here. But overall I think it is coming along really well. But now you think about it. Okay. A few scenes of the re even this we can remove.

Ananthu Vijayan: Huh?

Philip Samuelraj: The uh what you call it the jail tsunami is great. After that this is good. This should be the same church. You you leave this you you know other ribbons.

Philip Samuelraj's Presentation: In the

Philip Samuelraj: Okay.

Ananthu Vijayan: Okay.

Philip Samuelraj's Presentation: end,

Philip Samuelraj: Comes in blow this out and then come in look back and then you look at it right the same steps should be the same place where the arrest and someone

it should be the same place where he you know he was arrested. This should it should be the same uh in a little older sense even by the beach and then the character the same part

00:13:52

Ananthu Vijayan: Huh?

Philip Samuelraj: should this is very good.

Ananthu Vijayan: Huh?

Philip Samuelraj: Yeah. Coming in and that's it closer. Okay.

Philip Samuelraj's Presentation: gota

Ananthu Vijayan: Okay.

Philip Samuelraj: And one more thing uh with the character here right the character here um we are say we set it up at 1998 okay the wedding is

Ananthu Vijayan: Okay.

Philip Samuelraj: 98 the tsunami was 2004 December 2004 December 26 2004 okay um but this character is aged too much in the jail. It should not be the case.

Ananthu Vijayan: Okay.

Philip Samuelraj: It should be some part of that still charming young person and like

Ananthu Vijayan: Okay.

Philip Samuelraj: maybe like as I said like you know a slight facial scar here somewhere which can be covered by a beard you know some kind of a scar hurt all of that should be there but slightly looks like this looks like a 30-ish old guy think of

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: it right um from a character as we need to start uh deeply thinking

Ananthu Vijayan: Yeah.

Philip Samuelraj: Um, say born in 1980 or 78. Think about it.

00:15:19

Ananthu Vijayan: Okay.

Philip Samuelraj: 78 or make it 76 because 76 to 2650 will be around.

Ananthu Vijayan: All

Philip Samuelraj: Make it 76. He was 22 years old in

Ananthu Vijayan: right.

Philip Samuelraj: um yeah when arrested 6 years in prison 28 he escapes then comes back 22 years later or something like

Ananthu Vijayan: Okay. Okay. Oh,

Philip Samuelraj: that.

Ananthu Vijayan: okay.

Philip Samuelraj: So we can you you look at those numbers as well. What would actually work well from a characterization perspective?

Ananthu Vijayan: Okay.

Philip Samuelraj: Okay.

Ananthu Vijayan: Yeah.

Philip Samuelraj: And then we'll do this. This scene is actually pretty good. Like even finish off this with blowing off the candle and then coming over walking looking back and we'll close the trailer. 2

Ananthu Vijayan: Okay.

Philip Samuelraj: minutes.

Ananthu Vijayan: That flashback thing which you mentioned, can you say it one second? We don't need to show it like a flashback. It can be

Philip Samuelraj: It can be very sequential.

Ananthu Vijayan: the

Philip Samuelraj: You understand? There's no need to be have a flashback inside of a trailer.

00:16:54

Philip Samuelraj: It'll actually mess people up.

Ananthu Vijayan: Okay.

Philip Samuelraj: You get it? We don't have to show all of those things.

Ananthu Vijayan: Okay.

Philip Samuelraj: Let's show the first part, the warm part, you know, the young guy. Some part is their jail and some part is this. That's all. Finish that off.

Ananthu Vijayan: The voice over also we need to change. Apparently the voice overlay is like uh like previously we had this kind of thing. So I think we we need to change the voice over.

Philip Samuelraj: Agreed. Agreed.

Ananthu Vijayan: So

Philip Samuelraj: Voice over I'm actually uh the part is if we can get the visuals right voice over we can actually make it three things I mean many things.

Ananthu Vijayan: yeah.

Philip Samuelraj: For example, we can have a happy voice over at the top uh at the front uh uh uh uh so you know sad voice over uh in the middle quickly in the jail scenes uh and then uh uh you know very calm calculated voice over at the end or we can have the same arm.

00:17:56

Ananthu Vijayan: Okay.

Philip Samuelraj: the way you are thinking which is from the time you know somebody is recoloring it's everyone is the um current character who is actually recoloring his old life we can voice over we can do

Ananthu Vijayan: Okay.

Philip Samuelraj: anything okay voice over we can do anything can

Ananthu Vijayan: Okay.

Philip Samuelraj: try out a few things we can actually launch with two three different voiceovers as well so not a problem one more thing uh from a Uh I was discussing with Aparna and we thinking like there might be a chance that even real actresses are interested or real actors are interested. We say like hey this is an a movie but we need your likeness. We would need your time in promotions and so on for the

Ananthu Vijayan: H.

Philip Samuelraj: movie. might be a case that they are interested but we will work along right now with just like that but if that's the case one or two characters here and there will

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: change that should be not too hard right

00:19:05

Ananthu Vijayan: Okay. No,

Philip Samuelraj: because we will have the prompts we have

Ananthu Vijayan: like

Philip Samuelraj: everything

Ananthu Vijayan: yeah, it's like we we'll be just replacing the character.

Philip Samuelraj: exactly character okay but so this is Next part that I wanted to understand is uh with Hicksfield and all of the tools, what plans are you in right

Ananthu Vijayan: Currently I'm in ultra plan but they renamed it to max

Philip Samuelraj: now?

Ananthu Vijayan: now. So it's individual plan actually.

Philip Samuelraj: Okay. Why you going for India plan instead of business plan?

Ananthu Vijayan: It gives more credit. We can buy 6,000 credits for $200.

Philip Samuelraj: Oh,

Ananthu Vijayan: For team blend, we'll only get uh 1,800 credits or something.

Philip SamuelRaj: you're doing ultra.

Ananthu Vijayan: Yeah. Ultra.

Philip SamuelRaj: Ultra. Yeah. 3,000 credits.

Ananthu Vijayan: That's the base thing. We took the 6,000 credit plan.

Philip SamuelRaj: 9,000 credits is only 270. Okay. But business another for 150

Ananthu Vijayan: Huh?

Philip SamuelRaj: uh sorry monthly is 228 uh you get 12,500 credits.

00:20:37

Philip SamuelRaj: No, you get only 2,500 credits per seat.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: You need five seats minimum.

Ananthu Vijayan: Mhm.

Philip SamuelRaj: So that'll be $1,000. A but then you can parallelly. generate 20 videos.

Ananthu Vijayan: In our current time we can parally generate eight videos.

Philip SamuelRaj: But that's more than enough, is it? Okay.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: As long as you are not limited by plants, that's fine. Okay.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: Let's keep going. Um um I think that's all the feedback that I have. You get it right? Overall feedback. If you can get something good within launch and then start working deeply on uh the I was just thinking even even famous actors and all for likeness and this for a movie and all they do like only few lakhs only uh like actor salary and all this actress and all is only getting paid like 35 lakhs 40 lakhs 50 lakhs even for a full So that's why I was thinking if if that is the case because publicity it might be very much more helpful with somebody who already has a brand

00:22:29

Ananthu Vijayan: That's correct.

Philip Samuelraj: is saying what is it Look at that. I was Yeah. Um Yeah. Some of them get paid only 25 lakhs, 30 lakhs to only. So it might might be even so what I'm thinking is like hey this is just maybe providing pictures and allowing for likeness that's all and then promotions. So they might be actually be willing to actually come for even

Ananthu Vijayan: H

Philip Samuelraj: lesser.

Ananthu Vijayan: no another

Philip Samuelraj: We'll see.

Ananthu Vijayan: thing uh they

Philip Samuelraj: Oh,

Ananthu Vijayan: live by like many people are dependent on film industry. So there might be chances we'll be getting hates also like

Philip Samuelraj: we will get a lot of hate though. We will definitely get a lot of hate.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Okay. Uh but that's the want to make can you hear me now okay that's the whole point I want to make in

Ananthu Vijayan: Yeah, I know

Philip Samuelraj: the sense that is the same for us also think about it many people on software and all now

00:24:02

Ananthu Vijayan: it's

Philip Samuelraj: writing software as such as a skill is going same way you know film industry needs to change they need to come with great content

Ananthu Vijayan: Yeah.

Philip Samuelraj: they need to create soon and they need to launch so much uh you know good movies. They need to start, you know, uh building even really good content that people want to see. Ultimately, change makers are going to get ahead.

Ananthu Vijayan: Yeah.

Philip Samuelraj: But you think about it,

Ananthu Vijayan: Yeah.

Philip Samuelraj: whatever hate or so on, ultimately the consumer dictates where they pay money. Right now the movie industry as such as such ultimately who dictates money the person who goes over and watches and pays money to be entertained. If AI is able to if you you and I are using AI are able to create something that people can go and watch and actually enjoy and want to pay or leave movie theaters and all of that.

Ananthu Vijayan: H.

Philip Samuelraj: They just pay watch an OTD. We can just make a movie purely for OTD.

00:25:27

Ananthu Vijayan: Huh?

Philip Samuelraj: Say the cost of making us for us comes over to um let me put 25 lakhs. I'm just making making a number right 25 lakhs for all of us because see there is a cost to my time your time everybody's time review time and all of that 25 lakhs too.

Ananthu Vijayan: H.

Philip Samuelraj: We sell for 2 crores still a 10x profit there.

Ananthu Vijayan: Yeah.

Philip Samuelraj: And here's the other part.

Ananthu Vijayan: Yeah.

Philip Samuelraj: If you think about it, the movie industry is also one of the worst industries on the planet. Let me tell you why. It's full of nepotism. Number one, the industry where you need to be somebody's son. Somebody will be there. They won't actually give you anybody else a chance. Even more talented people everywhere, correct? They will be there.

Ananthu Vijayan: Yeah.

Philip Samuelraj: They will create a small wall. make sure only people they like and some people get lucky going in there because somebody liked them and so on and they closely got the walls.

00:26:33

Philip Samuelraj: Correct. It's one of the see it's not one of the most beautiful things about the tech industry

Ananthu Vijayan: Yeah.

Philip Samuelraj: right is that it doesn't have much of that in India there is slightly there but you look at us in a company if there is good talent in Bangladesh we'll

Ananthu Vijayan: H.

Philip Samuelraj: hire we don't know them at all I have not met most of those guys

Ananthu Vijayan: Hm.

Philip Samuelraj: in person they are a completely Clean. different country. They are a completely different religion, completely different language also. We don't have anything in common with them. Yes or no?

Ananthu Vijayan: H.

Philip Samuelraj: But we are fully professionally working with them because they bring talent.

Ananthu Vijayan: Yeah.

Philip Samuelraj: They work hard. That's our only criteria. If they do bring talent and work hard, we will appreciate them. We will give them rewards. We will give them hikes. Same in India whether it is Tamil Nadu or Kerala or Karnataka or Gujarat wherever it is. Same as US.

00:27:38

Philip Samuelraj: So we are actually truly a open meritocrress culture. We only purely merit. All we are asking for is come here work hard do your best. If that is adding value to the company you are good.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: But the movie industry is actually one of the most horrible industries. Say you are having very good talent. You think you just going in you will be able to succeed.

Ananthu Vijayan: I know.

Philip Samuelraj: They will give you a chance based on your talent.

Ananthu Vijayan: I don't

Philip Samuelraj: Exactly.

Ananthu Vijayan: know.

Philip Samuelraj: So my narrative around this is going to be our narrative should be hey look all of these guys who are guarding the movie industry. We are democratizing movie making now any good guy with the story should be able to make a movie and say hey this is the movie watch it and people should be it's like oh this is good people watch it they rate it and it should be coming over. We should develop uh the tech's uh studio as such.

00:28:50

Philip Samuelraj: We should that's the way it should be.

Ananthu Vijayan: Okay. Okay. Yeah.

Philip Samuelraj: You get that we should be developing like hey we have a software like you know

Ananthu Vijayan: Yeah.

Philip Samuelraj: maybe we become really big hickfield partners. We develop our own software to make sure we maintain prompt prompt images prompting images

Ananthu Vijayan: H.

Philip Samuelraj: whatsoever like whatever and so on. So any pebody comes over to us with a script, we should be able to create, make their dreams a reality.

Ananthu Vijayan: Yeah.

Philip Samuelraj: How many people with really good stories are actually roaming the streets trying to make movie?

Ananthu Vijayan: many people.

Philip Samuelraj: Manybody, many people are there, right? And how many people want to make a great movie but ultimately the producer comes over and says

Ananthu Vijayan: Yeah.

Philip Samuelraj: I need five fights in the movie. I need this in the movie. I need this in the movie. And even they are not even able even the guys who make the movie are not able to make the movie.

00:29:54

Ananthu Vijayan: H.

Philip Samuelraj: All of this is what we want to change. So we'll have a narrative. What I'm saying to say is when the movie people all of those people raise that we should be able to you

Ananthu Vijayan: H.

Philip Samuelraj: know push this again.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: We are saying hey now anybody can make movies. Your dad doesn't have to be a big shot. You don't need so much money. You don't need to be a producer. You don't need to big big other directors. You don't need that. If you have talent, you can build and showcase to the world.

Ananthu Vijayan: H.

Philip Samuelraj: Bringing mecracy to the movie industry. Correct.

Ananthu Vijayan: Yeah.

Philip Samuelraj: And movie industry. One of the other things that I absolutely hate, right? They have the biggest ass kissing in the whole world. You come over to a stage, have you seen that? They'll be like u uh like I don't know about malam how uh sir did this they will actually speak five minutes of praises of oh sir did that they will speak five minutes of praises for that.

00:31:15

Ananthu Vijayan: Huh?

Philip Samuelraj: Oh yo this director sir did this they will speak five minutes like uh yo I was like none all of their talks and all of those is just people worship many industries it used to be the same everywhere but most industries have moved away they think all of this is garbage we are now competing globally see I was in Google Sundar Puch is managing of the world's one of the world's uh largest companies. Nobody comes here and says oh sund you're such a great person blah blah blah. They are actually coming here and saying Google this is not right that is not right this is not right and asking questions to sunda that's the culture the world has moved to but not our

Ananthu Vijayan: Mhm.

Philip Samuelraj: Indian movie in in India specifically the movie movies only they still maintain the old hegman and all so I am actually

Ananthu Vijayan: Yeah.

Philip Samuelraj: happy all of this disruption is coming and also even From a spending perspective, we spent you know uh 2 crores for this scene, 20 crores for that screen you know see all of that all of that has also become more of a competition rather than true content

Ananthu Vijayan: Yeah.

Philip Samuelraj: truly making a thing your competition and ba So this is our opportunity to make a mark on that. We'll make a Okay. Did you apply for your passport?

Ananthu Vijayan: Yeah.

Philip Samuelraj: You and your

Ananthu Vijayan: Yeah. Yeah.

Philip Samuelraj: brother.

Ananthu Vijayan: We have

Philip Samuelraj: Good. Get the passport. We'll we'll quickly launch. We'll see what we can do. Okay.

Ananthu Vijayan: Okay. Yeah.

Philip Samuelraj: Awesome.

Ananthu Vijayan: Yeah.

Philip Samuelraj: See you.

Ananthu Vijayan: Bye.

Philip Samuelraj: Bye-bye.

Ananthu Vijayan: Yeah.
