Techjays Originals

Invited Philip Samuelraj Ananthu Vijayan Aparna Pillai

Attachments Techjays Originals

Meeting records Transcript

Summary

Production planning for an upcoming project involving scene composition, visual standards, and strategic channel rebranding.

Scene and Visual Standards
Character positioning and world building for the fictional seaside setting were established. Visual refinements include adjusting facial scarring and correcting rendering errors on character attire.

Audio and Technical Execution
The team resolved to combine human voice modulation with AI generation to overcome current software limitations. The project conversion to 4K resolution was formally authorized.

Marketing and Branding Strategy
A decision was made to launch a new channel under the name Techjays Originals for professional branding. The publicity strategy prioritizes generating audience buzz to support the narrative.

Decisions

Aligned

- **Character scene positioning determined** The visual composition of the scene is set with Clara in the middle, the cousin on the right, and the main lead character on the left.
- **YouTube launch deadline established** The team will target the 25th as the deadline for content readiness and the YouTube launch.
- **Apple original font style adopted** The visual design will adopt an Apple Original-style font to maximize readability and audience recognition.
- **Remove generated film text** The text overlay 'A fully generated film' will be removed from the presentation.
- **Character scar position adjusted** The character's scar will be positioned slightly lower and integrated with a beard.
- **Fictional town setting chosen** The village and jail town settings will be established as fictional locations.
- **Gloves visual issue resolved** The gloves in the scene will be removed or changed to resolve visual ambiguity.
- **Crisp narration style prioritized** The narration style will shift to be crisp and abstract, prioritizing audience imagination over detailed explanation.
- **Publicity strategy defined** The team will embrace negative publicity as a valid strategy to generate project awareness.
- **Character Instagram page creation** An Instagram page will be created for Clara and the main character to build a backstory.
- **YouTube channel rebranding approved** The YouTube channel will be rebranded and renamed to 'Techjays Originals' to establish a clear identity.

We've **updated the Decisions section** using your feedback.

Let us know what you think: Helpful or Not Helpful

Next steps

- [ ] [Ananthu] Change Font: Update video font to match the Apple original style for better readability.
- [ ] [Aparna Pillai] Review Video: Analyze video details and feedback to ensure cohesive storytelling.
- [ ] [Ananthu] Remove Scenes: Delete the fully generated film sequence from the current project.
- [ ] [Ananthu] Adjust Character: Correct the character size mismatch for the person jumping into the water.
- [ ] [Ananthu] Modify Scar: Move the character scar to a lower position on the face.
- [ ] [Ananthu] Remove Boards: Remove the boards from the island scene.
- [ ] [Ananthu] Create Fictional Town: Design fictional settings for the village and jail scenes.
- [ ] [Ananthu] Improve Hair: Ensure consistent hair visibility during the 4K conversion process.
- [ ] [Ananthu] Fix Gloves: Adjust lighting or remove glove artifacts in the relevant scene.
- [ ] [Ananthu] Convert Trailer: Process the trailer into 4K resolution after applying all visual edits.
- [ ] [The group] Build Social Media: Launch an Instagram page for characters to build audience engagement.
- [ ] [The group] Setup Channel Email: Create a dedicated email account for managing the new channel.
- [ ] [The group] Launch Channel: Establish the Techjays Originals YouTube channel using the new email address.
- [ ] [Ananthu] Finalize Trailer: Finalize the trailer and ensure all assets are ready by the 25th.

Details

- **Scene Blocking and Character Positioning**: Ananthu Vijayan and Philip Samuelraj discussed the layout for an upcoming scene, establishing that the character Clara will be positioned in the middle, the cousin on the right, and the main lead character on the left, ensuring all events revolve around Clara (00:00:41).
- **Project Timeline**: The team established a target deadline of Wednesday, the 25th, to finalize and upload all materials to YouTube (00:03:11).
- **Visual Identity and Font Choice**: Philip Samuelraj requested the use of an "Apple Originals" style font for the trailer, emphasizing a desire for extreme readability and a professional, artsy aesthetic that clearly identifies the content (00:03:11).
- **Visual Refinements**: The team reviewed several visual elements, including the removal of a specific flag in a background scene and the removal of text stating the film was "fully AI generated" (00:06:00). Additionally, they addressed the need to fix a size discrepancy between a character and their double in the water-jumping scene (00:07:26).
- **Character Detail Adjustments**: Philip Samuelraj requested adjustments to a character's facial scar, suggesting it be made more prominent and partially covered by a beard (00:09:06). Regarding hair density in the rendering, Ananthu Vijayan explained that adding hair had previously altered the character's facial features, but they intend to resolve this in upcoming scenes (00:11:37).
- **Setting and World-Building**: The group discussed the setting, agreeing to create a fictional seaside town in Kerala to serve as the backdrop for the church and the "jail town" scenes (00:10:17). They also reviewed a sequence featuring a modernized church and road to represent the theme of "vengeance" (00:13:03).
- **Correcting Apparel Continuity**: Philip Samuelraj noted that an observer identified "funny-looking" gloves on a character, which appeared to be a rendering or lighting error. Ananthu Vijayan agreed to address this, as it did not fit the character's attire (00:13:03).
- **Voiceover and AI Audio Strategy**: The team discussed the strategy for dialogue in the trailer. While Philip Samuelraj preferred using their own voice,

Ananthu Vijayan noted that the "Xfield" platform has limitations with current AI voice cloning capabilities compared to tools like 11 Labs. They decided they would attempt to work around this by mixing generated voices with human voice modulation (00:14:32).

- **Publicity Strategy**: Philip Samuelraj emphasized that the project should generate buzz, noting that they are willing to accept negative publicity if necessary, as all publicity is considered beneficial for the launch (00:21:35).
- **4K Conversion Strategy**: Ananthu Vijayan confirmed there are no technical barriers to converting the content to 4K, though it will consume generation credits. Philip Samuelraj authorized the conversion to proceed (00:21:35) (00:28:00).
- **Project Goals and Creative Vision**: The team reaffirmed their objective to produce a project that achieves high realism and a strong, emotional reaction from the audience. They intend to leverage the narrative strength of a successful, 200-year-old story adaptation (00:22:54).
- **Marketing and Channel Infrastructure**: Philip Samuelraj instructed the team to develop a character backstory via an Instagram page (00:24:03). Furthermore, they decided to overhaul their YouTube presence, as the current channel name was deemed unprofessional. They plan to create a new channel, "Techjays Originals," managed through a dedicated email address, originals@techjays.com (00:25:50).

Techjays Originals - Transcript

00:00:41

Aparna Pillai: Then session.

Ananthu Vijayan: All right.

Aparna Pillai: explain something.

Ananthu Vijayan: for you.

Aparna Pillai: I Marian.

Ananthu Vijayan: Hi.

Philip Samuelraj: Hey, I was just watching what you had shared.

Ananthu Vijayan: Yes.

Philip Samuelraj: That's why I got a little late. Let me actually share. I'm really liking how this is shaping up.

Ananthu Vijayan: Hen

Philip Samuelraj: So, fantastic. Fantastic. What what what were you thinking with the kids

Ananthu Vijayan: actually my brother like uh in the childhood like they're it's like

Philip Samuelraj: scene?

Ananthu Vijayan: they are fighting for Clara. So Clara will be in the middle and the casin will be on the right and uh our main lead character will be on the left.

Philip Samuelraj: Hey.

Ananthu Vijayan: So everything happens for Clara.

Philip Samuelraj: Oh,

Ananthu Vijayan: So he plays that.

Philip SamuelRaj: I really like it. I like that idea.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: May we'll weave all of that into the Okay.

Ananthu Vijayan: Yeah,

Philip SamuelRaj: See when is

Ananthu Vijayan: next week 28 not 20 25 26 27 something like

00:03:11

Philip SamuelRaj: Oh,

Ananthu Vijayan: that.

Philip SamuelRaj: 25, right? 26. So, Wednesday.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: So, we have to get all of this ready, get into YouTube and all of that by the 25th, right?

Ananthu Vijayan: Yeah.

Philip SamuelRaj: Cool. So, let's target that. Let me open this

Ananthu Vijayan: H.

Philip SamuelRaj: in.

Philip SamuelRaj's Presentation: I don't know.

Philip SamuelRaj: Uh, how long it will take to actually change the font?

Ananthu Vijayan: It's easy only. We can change it really quickly.

Philip SamuelRaj: Easy. Yeah. Um, I want to use like an Apple font.

Ananthu Vijayan: Yeah.

Philip SamuelRaj: You've seen an Apple original.

Ananthu Vijayan: Apple phone.

Philip SamuelRaj: It's very No,

Ananthu Vijayan: This is Apple logo phone or like phone.

Philip Samuelraj: no. Apple when they produce movies and all.

Ananthu Vijayan: Okay.

Philip Samuelraj: You check out check that out. Apple originals how it comes in a movie. Okay.

Ananthu Vijayan: Okay.

Philip Samuelraj: Even in a trailer. I like that. I I want something similar.

Ananthu Vijayan: Okay.

00:04:37

Philip Samuelraj: Um um because I think uh that is more appealing.

Ananthu Vijayan: Okay.

Philip Samuelraj: This this looks okay but I want like um uh what do you call it? This looks more artsy. I want extreme readability. What I mean is it should very clearly people like oh TG is original. That's what people should actually get the mind look at Apple

Ananthu Vijayan: Okay.

Philip Samuelraj: originals and do that.

Ananthu Vijayan: Okay.

Philip Samuelraj: When will we get like uh 4K

Philip Samuelraj's Presentation: I don't

Philip Samuelraj: video?

Ananthu Vijayan: Okay. Like once we once

Philip Samuelraj's Presentation: know.

Philip Samuelraj: Okay. Okay. There you go.

Ananthu Vijayan: every

Philip Samuelraj: That's one thing about it. This is good. Ration also will change.

Philip Samuelraj's Presentation: Cuddle

Philip Samuelraj: This is all good. This photo scene is okay.

Philip Samuelraj's Presentation: Kumb.

Philip Samuelraj: Hey, you were you had some feedback this house you give all of that

Aparna Pillai: I will look at it once again closely.

Philip Samuelraj: little details and all you know more one more thing right the little little details also had.

00:06:00

Philip Samuelraj: to a lot of context.

Ananthu Vijayan: Okay.

Philip Samuelraj: We might not actually recognize it for people looking at it. It's like all of those little things is what adds to your cognitive one. So like, hey, can we add something little here that actually conveys a story and so on? Please do. Yes.

Philip Samuelraj's Presentation: P in the

Ananthu Vijayan: Okay.

Philip Samuelraj's Presentation: CL.

Philip Samuelraj: We can remove this here. Okay. A fully a generated film also we can remove.

Ananthu Vijayan: Okay.

Philip Samuelraj: Okay. Remove this.

Philip Samuelraj's Presentation: But they

Philip Samuelraj: This is very cool. Okay. This looks like actually they are being watched.

Philip Samuelraj's Presentation: march.

Philip Samuelraj: You understand? It can be seen in a movie as well. They are walking past, they stop and then they have a chat and then they walk.

Ananthu Vijayan: Okay.

Philip Samuelraj: Cool.

Ananthu Vijayan: Okay.

Philip Samuelraj: This is fantastic. This is something that I was like loving because uh the sea, the rustic nature of the road, the old church that is decorated for like the wedding but not necessarily much.

00:07:26

Philip Samuelraj: All of this is fabulous. Police is coming in. Fantastic. What is this flag for?

Ananthu Vijayan: that I'm not sure actually to check that.

Philip Samuelraj: That's the only thing that is striking. Uh but for that all gold even then it's like in the'90s not many people even had cars and all of that and in a village like this people would have only walked right. So all of this is so cool. This is the imagination, right?

Ananthu Vijayan: Yeah.

Philip Samuelraj: Fantastic. This is flashback. I'm still thinking maybe this should go in the front, but um okay. Uh I I'm still undecided. Not a problem. Uh the only thing here is when he jumps in right

Ananthu Vijayan: H.

Philip Samuelraj: it does look like he's a very big guy compared to this guy. You see the size of the guy who jumps into the water actually doesn't match this guy.

Ananthu Vijayan: Okay.

Philip Samuelraj: Can we work on that?

Ananthu Vijayan: Yeah. Like it is.

Philip Samuelraj: You there's a thing like that for you as well.

00:09:06

Philip Samuelraj: This guy look the guy who jumps into the water looks very big. Huh?

Ananthu Vijayan: compared to the other guy.

Philip Samuelraj: Ah exactly.

Ananthu Vijayan: That is what you're saying.

Philip Samuelraj: But actually this guy should be see he he follows right.

Aparna Pillai: Okay.

Ananthu Vijayan: Okay.

Philip Samuelraj: Look at this. This guy is actually bigger and older. This guy compared to a hero. That's one. This is all cool. This is cool. Isn't it cool?

Philip Samuelraj's Presentation: again.

Philip Samuelraj: The scar can be slightly lower as well. Yeah.

Ananthu Vijayan: Okay.

Philip Samuelraj: the scar alone like a really

Ananthu Vijayan: H.

Philip Samuelraj: um uh uh you know prominent scar here and that's you know covered with the beard kind of

Ananthu Vijayan: No, no,

Philip Samuelraj: okay what is he

Ananthu Vijayan: no.

Philip Samuelraj: saying what is he

Philip Samuelraj's Presentation: Cha

Ananthu Vijayan: uh like we don't need revenge and

Philip Samuelraj: doing

Ananthu Vijayan: when

Philip Samuelraj: and what does Is he drawing here?

Ananthu Vijayan: uh he's pointing the where the pressure is like

00:10:17

Philip Samuelraj's Presentation: cha.

Philip Samuelraj: Uh, pressure is on me,

Ananthu Vijayan: he's just

Philip Samuelraj: right? Perfect. That's fine. This is all cool. Uh, still uh this island

Philip Samuelraj's Presentation: Super.

Philip Samuelraj: uh looks like a fantasy, but now I'm thinking maybe we should keep it like a fantasy. What are you thinking?

Ananthu Vijayan: uh I think this is okay only because like I checked the view of Kach and it was kind of similar.

Philip Samuelraj: It looks like this. H kind of like this.

Ananthu Vijayan: Yeah. Yeah.

Philip Samuelraj: In that case, do we want to show all of these boards here?

Ananthu Vijayan: about we can remove.

Philip Samuelraj: I can remove, right? Keep this this way and just boards they remove. Okay.

Ananthu Vijayan: Yeah.

Philip Samuelraj: And then I thought about this part as well like can we invent a fictional town

Ananthu Vijayan: Okay.

Philip Samuelraj: even the village where the church is should be fictional some town by the seashore in Kerala this jail town as well invent a fictional town and put because as you're right it should be like jail something like that that long but

00:11:37

Ananthu Vijayan: Okay.

Philip Samuelraj: the kind seen all of this is

Ananthu Vijayan: Okay.

Philip Samuelraj: fantastic. Here I still have more hair than this guy.

Ananthu Vijayan: We

Philip Samuelraj: This guy looks like he's bald.

Ananthu Vijayan: Um when we applied Actually when we as to add hair like it's changing the face also. So in this scene the hair is it's not that visible much now. So we ignore this. On the next scene we have fixed it

Philip Samuelraj: close. Okay, that's fine then.

Ananthu Vijayan: actually.

Philip Samuelraj: But hey, in the main movie,

Philip Samuelraj's Presentation: You

Philip Samuelraj: I need to have at least this much air.

Ananthu Vijayan: Okay.

Philip Samuelraj's Presentation: don't

Philip Samuelraj: But maybe you see that when you convert to 4K or whatever.

Ananthu Vijayan: Yeah.

Philip Samuelraj: This is cool.

Philip Samuelraj's Presentation: end there.

Philip Samuelraj: You cut to these scenes, right? That's like a private aircraft. Is that what you're thinking? The cutting scenes. Is the hair here enough?

Philip Samuelraj's Presentation: Back

Philip Samuelraj: But here is the one thing I really loved around is the same setting,

00:13:03

Philip Samuelraj's Presentation: up.

Philip Samuelraj: modern setting with the flag also. The same church is now modernized. The road is modernized and all. This is like fantastic. What did you say? This is vengeance. Huh?

Ananthu Vijayan: Yeah,

Philip Samuelraj: The title.

Ananthu Vijayan: means Adam the name we can change this

Philip Samuelraj: No, no, no. That's okay. Already means uh Okay, that's fine.

Ananthu Vijayan: this

Philip Samuelraj: Alam naming. I leave you and here. So this is plastic. All of this is adul. Okay. Oh, one more thing.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Amy looked at it and I said me wearing this here. You see the gloves? That looks very weird.

Ananthu Vijayan: Okay.

Philip Samuelraj: You see here,

Ananthu Vijayan: Oh.

Philip Samuelraj: my daughter only I didn't even notice that my daughter looked at her and said,"Why are you wearing like a funny looking

Ananthu Vijayan: Oh.

Philip Samuelraj: gloves?" Because it makes no

Philip Samuelraj's Presentation: End of your

Philip Samuelraj: sense for you to be wearing blows in

00:14:32

Philip Samuelraj's Presentation: turn.

Philip Samuelraj: India.

Ananthu Vijayan: I think that was not supposed to be a gloves. Maybe because of the lighting and or lighter. We will change that. Yeah.

Philip Samuelraj's Presentation: back.

Philip Samuelraj: Okay.

Philip Samuelraj's Presentation: Heat.

Philip Samuelraj: We'll we'll get the this is also good. We'll get the images right uh the video and then

Philip Samuelraj's Presentation: Heat.

Philip Samuelraj: we'll talk about the script. Okay. And then from a script point also I wanted to ask do you want to use my same

Ananthu Vijayan: H

Philip Samuelraj: voice reading out dialogues and then moving or we'll go with the full AI voice

Ananthu Vijayan: uh for a

Philip Samuelraj: whatever it is trailer we can have the same maybe change it in the movie we can do whatever no problem at all

Ananthu Vijayan: Okay.

Philip Samuelraj: what is

Ananthu Vijayan: Okay. I think your voice also will be fine.

Philip Samuelraj: Easy.

Ananthu Vijayan: But the thing is singing like dumping and because a will be lip will be sing for the a thing.

00:15:53

Ananthu Vijayan: So when we

Philip Samuelraj: No, no, no.

Ananthu Vijayan: up in

Philip Samuelraj: Can't you just take my voice and totally use it in AI voice cloning in HL?

Ananthu Vijayan: Hicksfield that is that is not possible that

Philip Samuelraj: It is not possible.

Ananthu Vijayan: yeah uh other thing is

Philip Samuelraj: Then use this itself. This voice I like this deep voice.

Ananthu Vijayan: like

Philip Samuelraj: I like what do you think about only

Aparna Pillai: This voice is good.

Ananthu Vijayan: uh but the thing is this voice is not I took it from 11 laps

Philip Samuelraj: right

Ananthu Vijayan: actually his field doesn't support that will be an issue. So we need to think how we will do this in

Philip Samuelraj: What does six wheel

Ananthu Vijayan: currently

Philip Samuelraj: support?

Ananthu Vijayan: English.

Philip Samuelraj: I was using Gemini and trying dialogues and all and it worked very well.

Ananthu Vijayan: Gemini we'll get but the thing is it won't be perfect

Philip Samuelraj: H how do these how does it make

Ananthu Vijayan: like

Philip Samuelraj: it perfect?

Ananthu Vijayan: uh

Philip Samuelraj: They still use all of the foundational models only, right?

00:17:19

Ananthu Vijayan: no like Xfield is using the latest model Cance 2.5 in

Philip Samuelraj: Yeah.

Ananthu Vijayan: Germany like in Google flow that is not available

Philip Samuelraj: So they use speed runs 2.5, cling 3.0, Sora 2 and no Sora 2. Sor has already shut down Google V3.1. They also have native models like soul.

Ananthu Vijayan: I tried generating my tilos using field. It will give actually but that field won't be there. It will just tell like an AI voice. Maybe we can d and reuse.

Philip Samuelraj: What do you mean double?

Ananthu Vijayan: D in the sense like in the scenes there will be a generator voice on top of that we need to give human voice with the

Philip Samuelraj: Anyway,

Ananthu Vijayan: modulation.

Philip Samuelraj: got it. That we can do, right?

Ananthu Vijayan: Yeah. Yeah.

Philip Samuelraj: We'll solve it too. That's why we are solving it for the first time.

Ananthu Vijayan: Hat.

Philip Samuelraj: What do you think of

Aparna Pillai: We can do it if this is what Shimaru asked. You remember we went and we came.

00:18:45

Philip Samuelraj: those guys are frauds?

Aparna Pillai: I know I mean this is the one they were asking dubbing and lip syncing using AI for all their videos and

Philip Samuelraj: Well,

Aparna Pillai: movies.

Philip Samuelraj: we'll we'll figure it out. Uh with respect to the narration, um I just am thinking that we need to make it crisp. That's all. I think the story line that you're saying is very good. Hey,

Ananthu Vijayan: H.

Philip Samuelraj: I have the sea, the sun, the friends, the family and so on. It looks like we are explaining instead of narrating. You understand the difference?

Ananthu Vijayan: H.

Philip Samuelraj: Narration should be crisp. Leave some sp space for imagination. We should not be explaining everything. You get it right?

Ananthu Vijayan: Yeah.

Philip Samuelraj: It should be, hey, I love the sea, the breeze, family, friends, my boss, my ship. It's very abstract. Oh, what I'm trying to say is it should be as abstract as possible. people will start um uh adding their own spin to it.

00:20:14

Philip Samuelraj: Even when hey in that one moment they actually broke it or something we are explaining right I had all of this until that one moment in the

Ananthu Vijayan: H.

Philip Samuelraj: story and then there is space then there is one dialogue and space I like those kinds of uh narrations you give some space for people to think and it is crisp and you leave some to people's imaginations Instead of full full length narrations, we can test it out. Whatever sounds good, we can use.

Ananthu Vijayan: Okay,

Philip Samuelraj: Okay,

Ananthu Vijayan: man.

Philip Samuelraj: does that make sense? A what do you think?

Aparna Pillai: I cannot imagine that with look at all the things once again and then I connect with another

Philip Samuelraj: Oh,

Aparna Pillai: totally

Philip Samuelraj: you just came back, right? Okay. We going to launch on Original trailer. Okay. And then we'll get a fulllength movie will launch. Anto was saying movie industry we will get actually negative publicity and all that's

Aparna Pillai: Oh f***.

Philip Samuelraj: totally fine.

00:21:35

Philip Samuelraj: We should get at least get negative publicity. Good publicity or not, we should get negative publicity. We need publicity. All publicity is good publicity. You know that, right? It's a famous statement. All publicity is good publicity. We need publicity. Let's go ahead and give it.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Okay. Lovely.

Ananthu Vijayan: Uh after fixing these issues, can we start converting to

Philip Samuelraj: Absolutely.

Ananthu Vijayan: 4K

Philip Samuelraj: Okay. Uh what what do you think is the issue? What do you is the issue with the 4K

Ananthu Vijayan: 4K?

Philip Samuelraj: is

Ananthu Vijayan: Uh there's no issues. is easy to what I think

Philip Samuelraj: okay.

Ananthu Vijayan: only thing is like till now we have generated for free credits for 4K it will take some credits that's

Philip Samuelraj: So, oh, that's fine. Don't worry about that.

Ananthu Vijayan: the

Philip Samuelraj: What are you thinking an with your creative vision and so on?

Ananthu Vijayan: bringing in the like how this came out.

00:22:54

Philip Samuelraj: What how this is show shaping?

Ananthu Vijayan: Oh, it's coming out in a nice way.

Philip Samuelraj: It should come in a super way though. This should like a rock people. You play that for your family,

Ananthu Vijayan: Uh

Philip Samuelraj: they should be like what happened?

Ananthu Vijayan: uh.

Philip Samuelraj: Hey, I played it to my kids. Both of the uh what happened? Why are the police coming? Oh, and so on. So, it is evoking a reaction. I want that reaction in everybody.

Ananthu Vijayan: Yeah.

Philip Samuelraj: H you get it right.

Ananthu Vijayan: Go

Philip Samuelraj: People should be like in awe of our work ultimately.

Ananthu Vijayan: ahead.

Philip Samuelraj: Number one, realism. Oh my good. This is should be as close to a real movie. Number one, they should be a by the realism. Number two, the story, the flow, it should captivate people. The best part is this is a novel that has captivated people for uh centuries more two centuries. It has it is a successful story.

00:24:03

Ananthu Vijayan: H.

Philip Samuelraj: The adaptation as long as we make it realistic and contemporary this people would like it.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Okay. You have big screen writers in your family and all you should beat them. So think about it. You know that huh?

Ananthu Vijayan: I know.

Philip Samuelraj: You know who's that guy

Ananthu Vijayan: No.

Philip Samuelraj: up?

Aparna Pillai: You know,

Ananthu Vijayan: H movie.

Aparna Pillai: Abasha is the

Ananthu Vijayan: Oh, okay.

Aparna Pillai: right

Philip Samuelraj: That guy is your husband's cousin,

Ananthu Vijayan: This

Philip Samuelraj: right? And you'll get the trailer. See, we have to create one of the things that I'm thinking of is um we have to create like an Instagram page for Clara and the character.

Ananthu Vijayan: huh?

Philip Samuelraj: We have to start building like a backstory for them.

Ananthu Vijayan: Huh?

Philip Samuelraj: I mean our story line and scenes also we need to start parallely working on how the scenes are going to flow what we want even before building it next for the movie. Okay.

Ananthu Vijayan: Yeah.

00:25:50

Ananthu Vijayan: Instagram page in the sense like what will she post like about the movie or she'll be posting her real life kind of thing.

Philip Samuelraj: a mix of both right about the movie.

Ananthu Vijayan: Okay.

Philip Samuelraj: So something like that people will start we've got to create the excitement but this is all secondary Instagram page all of those are secondary first launch we need where is the tech's YouTube channel why is the channel Techjays yes o and all who named that channel like Huh?

Aparna Pillai: I don't know. I don't know for the post maintaining

Philip Samuelraj: Look at this. This looks like some teenager named our channel. You remember they'll name it like for you, five you uh some funny name and all in the emails.

Aparna Pillai: We will revive it this completely.

Philip Samuelraj: We have to uh change it completely. The funniest looking name Techjays for you for you. Are there any other channels like Techjays? I don't think so. Is the Tig's name

Ananthu Vijayan: Oh,

Philip Samuelraj: taken

00:28:00

Aparna Pillai: Earlier we had one philip I think we lost it and then we recreated in 2025 once

Ananthu Vijayan: Fine.

Aparna Pillai: again. Is that the reason? I don't know. When Frank was there, we had one. When Frank when we were not able to revive it in case they created another one, I think check

Ananthu Vijayan: Okay.

Philip Samuelraj: Who is this?

Aparna Pillai: then

Philip Samuelraj: Wait a minute. Let me actually search out Cool. How to create a channel here.

Aparna Pillai: the top right.

Philip Samuelraj: Oh, okay. Maybe when they said take G this handle isn't available. Here's one available for you. They just said create. They didn't even think of Take the originals and can someone with be created from a tech JS ID and manage

Aparna Pillai: Sorry. Okay.

Philip Samuelraj: Um what was I was thinking uh it should be created from um like the maybe there is a separate email id common email id that we can manage which is

originals attegis.com use that and then create Techjays originals as a channel. We create the same Techjays originals from TechJS built by TechJS the reimagination company or something like that and then we'll start putting it. Okay. Ananthu you focus on getting the best trailer

Ananthu Vijayan: Yeah.

Philip Samuelraj: an best trailer that anybody who sees should be like oh wow there is something.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Okay. Yeah. When you're converting to 4K, don't make me bald. Before I am bald, but anyway, that dark scene also, that's fine. If that's how it comes along, that's fine. We'll we'll see. Um, anything else we need to discuss?

Ananthu Vijayan: Nothing I think.

Philip Samuelraj: Nothing. Awesome. Okay, another wonderful. Let's keep building. Uh, keep sending me revisions. I'll respond to your uh chat. We'll review and chat.

Ananthu Vijayan: Okay,

Philip Samuelraj: Aparna will help review now and we'll take it forward. Okay. Awesome. See you. See you now. Bye-bye.

Aparna Pillai: Thanks a little bit.
