Philip Samuelraj | Aparna Pillai | Ananthu Vijayan

AI filmmaking tools and platform development strategies with market research and narrative planning.

AI Film Platform Strategy

- Philip proposed building a proprietary platform to unify video and audio generation workflows.
- Development efforts will prioritize support for English and Indian languages.
- The platform will adopt a gated access model, utilizing a waitlist and trailer-exclusive content.
- Philip identified a need for a GM to lead external public relations and communications.

Film Narrative and Script Development

- Ananthu confirmed the film runtime will be approximately 20 to 25 minutes.
- Philip specified that dialogue should feel casual, day-to-day, and avoid excessive philosophical weight.
- The narrative requires elements of fun and joy to balance serious plot points.
- The team agreed to strictly avoid direct references to the LTTE conflict.
- Philip recommended establishing a strong, credible narrative link to frame Anthony for espionage.

Next steps

- [ ] [Ananthu Vijayan] Walkthrough Hicksfield: Explain the Hicksfield platform design, identified issues, and potential version 1.0 implementation steps to Ranjit.
- [ ] [The group] Schedule Standup: Coordinate a daily standup meeting involving Philip, Ranjit, and Ananthu.
- [ ] [Aparna Pillai] Suggest Name: Propose a suitable name for the new AI platform.
- [ ] [Philip Samuelraj] Contact Ranjit: Discuss the new platform development with Ranjit.
- [ ] [Ananthu Vijayan] Share Storyboard: Complete and distribute the visual storyboard for the film project by tomorrow.
- [ ] [Ananthu Vijayan] Review Script: Analyze the existing movie script to ensure accuracy and coherence.
- [ ] [Ananthu Vijayan] Develop Plot: Create a credible narrative link connecting Anthony to the espionage investigation.

Meeting records Transcript

Summary

AI filmmaking tools and platform development strategies with market research and narrative planning.

Platform Development and Strategy
Platform development focuses on leveraging hosted models for user experience. Benchmarking against Fountain Zero guides launch plans.

Narrative and Plot Development
Storyboards outline character journeys and conflict setups. Dialogue aims for casual yet meaningful tones.

Project Urgency and Validation
Rapid execution is emphasized for market validation. Early viewer feedback supports moving forward quickly.

Decisions

Aligned

- **Platform Development With Indian Languages Focus** The team decided to build an in-house platform featuring Indian languages as a primary advantage.

- **Fully Looped Engineering Platform Approach** The team decided to implement a fully looped engineering approach from zero to one using the latest technology.
- **Exclusive Trailer Waitlist Website Launch** The team decided to create a sign-up-only waitlist website showcasing exclusively movie trailers.

Next steps

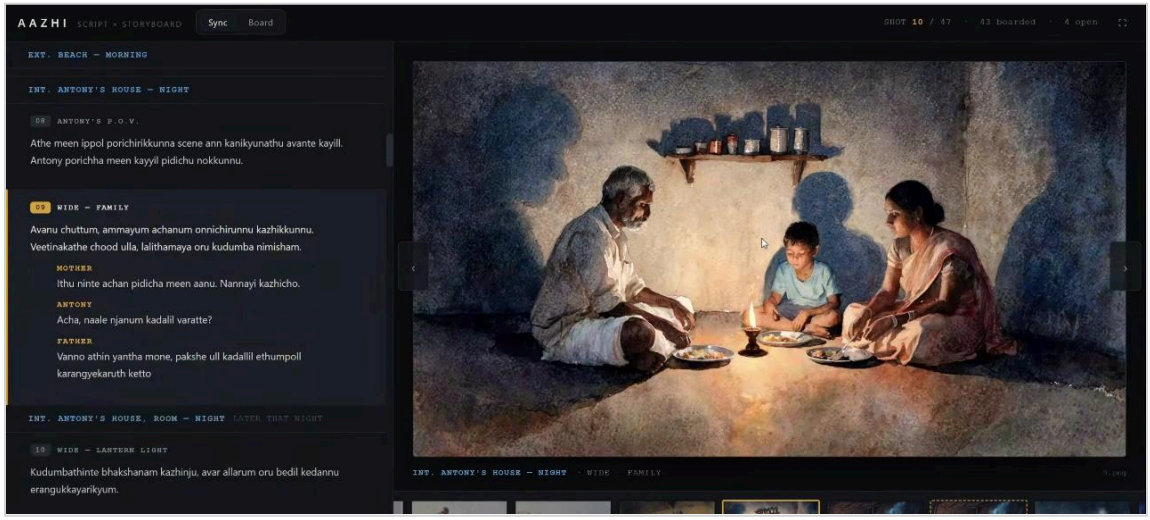

- ☐ [Ananthu Vijayan] Walkthrough Hicksfield: Explain the Hicksfield platform design, identified issues, and potential version 1.0 implementation steps to Ranjit.
- ☐ [The group] Schedule Standup: Coordinate a daily standup meeting involving Philip, Ranjit, and Ananthu.
- ☐ [Aparna Pillai] Suggest Name: Propose a suitable name for the new AI platform.
- ☐ [Philip Samuelraj] Contact Ranjit: Discuss the new platform development with Ranjit.
- ☐ [Ananthu Vijayan] Share Storyboard: Complete and distribute the visual storyboard for the film project by tomorrow.
- ☐ [Ananthu Vijayan] Review Script: Analyze the existing movie script to ensure accuracy and coherence.
- ☐ [Ananthu Vijayan] Develop Plot: Create a credible narrative link connecting Anthony to the espionage investigation.

Details

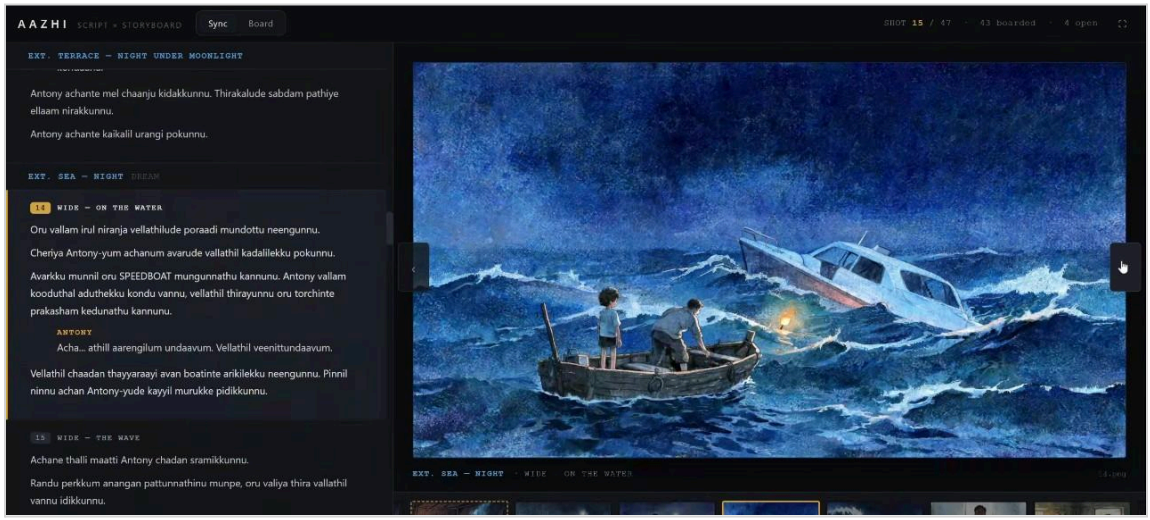

- **AI Filmmaking Tools and Concept Exploration**: The participants discussed the potential integration of AI technologies, specifically regarding synchronization, dubbing, and lip-syncing capabilities for video production. They explored the viability of an "AI film school" that would provide

masterclasses in filmmaking craft, while also evaluating existing video, end-to-end use cases (00:00:08).

- **Script Status and Duration**: Ananthu Vijayan reported that the current script, which covers the story up to the marriage, is currently in progress and was written by their brother (00:07:49). Ananthu Vijayan estimated that the film's maximum duration would be 20 to 25 minutes (00:10:41).
- **Platform Development Strategy**: Philip Samuelraj proposed building a proprietary platform focused on a strong user experience rather than developing new AI models, suggesting they leverage existing hosted models such as those from Gemini instead. They emphasized the need for a centralized solution that allows for seamless video and audio mixing, while prioritizing support for Indian languages rather than defaulting to English (00:10:41). Philip Samuelraj also noted that they would coordinate with Ranjit to iterate on a version 1.0 of the platform and suggested a "fully looped engineering" approach using the latest technologies (00:11:48).
- **Market Research and Benchmarking**: The team discussed benchmarking their platform against "Fountain Zero," a startup that uses a waitlist and private access model (00:12:43). Philip Samuelraj recommended that their platform focus on hosting trailers rather than full movies initially and implement a sign-up waitlist to manage early access. They agreed to explore potential domain names, including "techgorals.com," and established that a daily stand-up meeting involving Ananthu Vijayan, Philip Samuelraj, and Ranjit is necessary to coordinate these development efforts (00:14:00).
- **Public Relations and Launch Strategy**: Philip Samuelraj identified the need for a general manager who can effectively engage with public relations professionals to manage the project's launch and lead the communication strategy (00:14:58).
- **Storyboarding and Narrative Overview**: Ananthu Vijayan presented a storyboard that begins in a village setting, introducing the characters Anthony, Clara, and Jason, though the group discussed potentially renaming Jason to Fernando (00:14:58). The plot follows the children running to the beach to meet returning fishing boats, where they interact with Anthony's father (00:17:55). The narrative includes a night scene at home involving family discussions and a future-looking request from Anthony to join their father at sea (00:19:08).

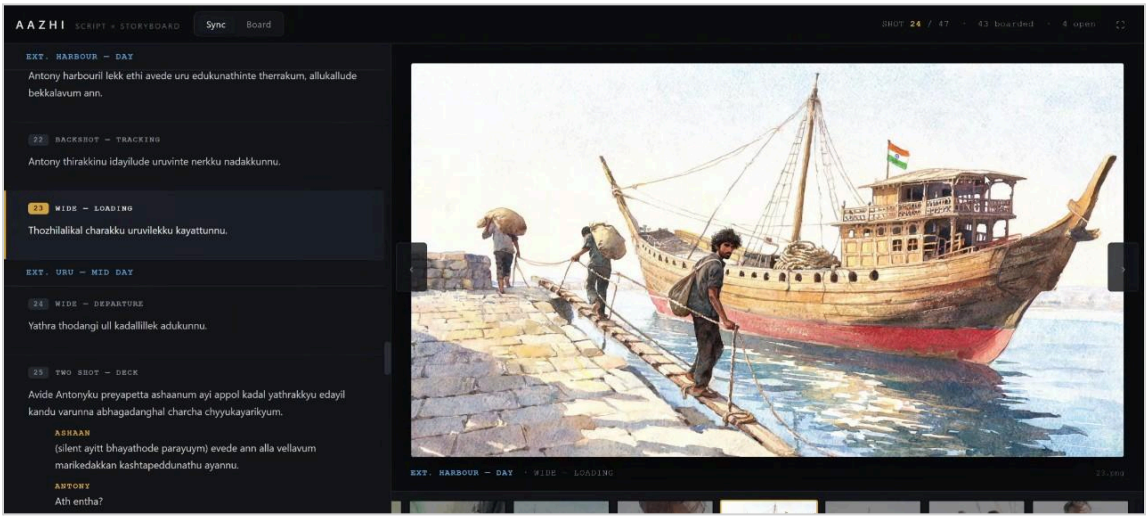

- **Dream Sequence and Transition to Present Day**: The story features a dream sequence where Anthony accompanies their father to the sea, leading to a storm and the boat sinking, which serves as a narrative transition to the present day (00:19:08). In the present, the 28-year-old Anthony prepares to travel to Sri Lanka to secure goods, involving a conversation with their mother and a brief interaction with Clara before departing (00:20:23).

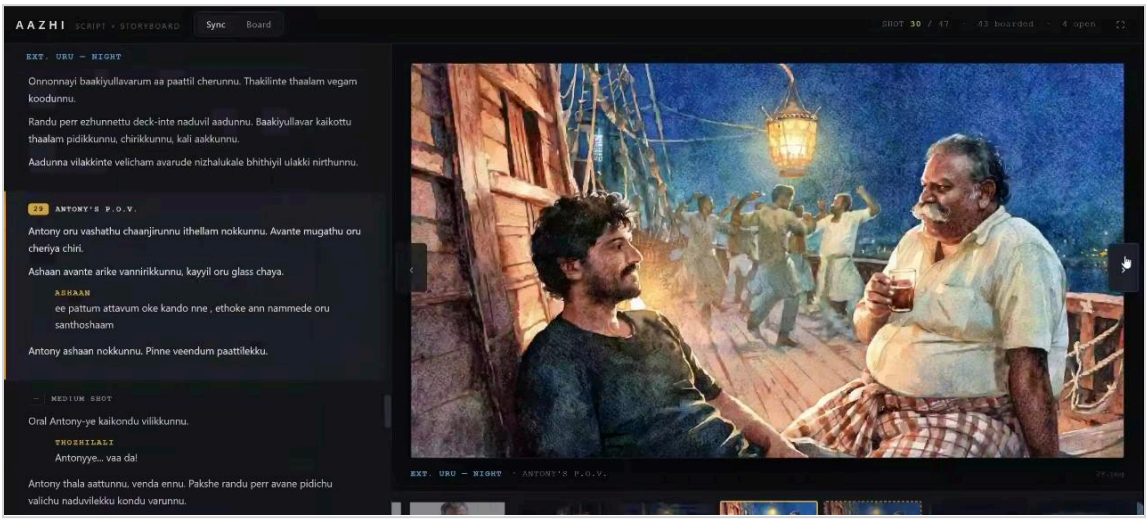

- **Plot Development and Conflict Setup**: The journey involves boarding a "Uru" boat, where conflict arises with a character named Balan, who harbors jealousy toward Anthony due to their proximity to the captain (00:21:34). While the narrative involves traversing a region associated with the LTTE conflict, the team

agreed to avoid using direct political labels like "LTTE" to prevent unnecessary issues, opting instead to refer to the area as dangerous (00:22:43).

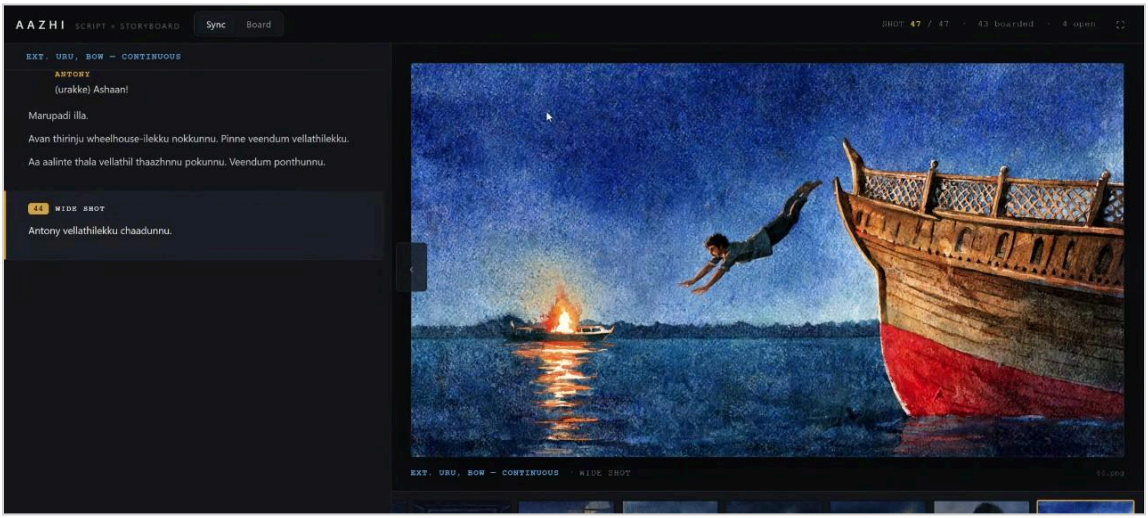

- **Tone and Dialogue Requirements**: Philip Samuelraj emphasized that the film's dialogue should be casual and day-to-day in nature, focusing on deep meaning without being overly philosophical. They stressed that even serious scenes should maintain an element of fun and happiness, urging Ananthu Vijayan to ensure this tone is reflected in the upcoming script revisions (00:23:55).

- **The Rescue Scene and Plot Connection**: The storyline includes a scene where Anthony discovers a sinking, burning boat and jumps into the water to save the occupants (00:25:20). To create a compelling, credible motive for Anthony's later imprisonment, Philip Samuelraj suggested that the saved individual should

hand Anthony a letter for their wife, which Balan then uses to falsely accuse Anthony of spying and aiding the LTTE, providing a strong catalyst for the central conflict (00:29:49).

- **Project Urgency and Validation**: Philip Samuelraj highlighted the need for rapid execution to stay ahead of market competition, noting that the project had already garnered over 2,000 viewers and received positive feedback, which served as validation to move forward quickly (00:32:37).

You should review Gemini's notes to make sure they're accurate. Get tips and learn how Gemini takes notes

Ananthu Vijayan: Hi.
Aparna Pillai: There
Ananthu Vijayan: Oh, she know
Aparna Pillai: Am I just
Ananthu Vijayan: 43 4
Aparna Pillai: Can you do climate process? I will
Ananthu Vijayan: script complete.
Aparna Pillai: see.
Ananthu Vijayan: Oh, uh uh.
Aparna Pillai: Best advantage.
Ananthu Vijayan: Uh Uh
Aparna Pillai: for
Ananthu Vijayan: uh. school. Oh. Uh generation paral.
Aparna Pillai: Fore speech. Explain to
Ananthu Vijayan: Um,
Aparna Pillai: for
Ananthu Vijayan: no.
Aparna Pillai: AI synchronization. for
Ananthu Vijayan: Huh? So
Aparna Pillai: platforming. Dubbing lip syncing for
Ananthu Vijayan: I don't know. Concentrate completely.

Aparna Pillai: I'm full Astra Exit light though.

Ananthu Vijayan: Ed generate uniform. manually. Yeah,

Aparna Pillai: video end to end use cases. system.

Ananthu Vijayan: Yeah. Yeah. Okay. Okay.

Aparna Pillai: Pro $20. for $20.

Ananthu Vijayan: No.

Aparna Pillai: Useful capabil

Ananthu Vijayan: Huh?

Aparna Pillai: One, one month. movie making school

Ananthu Vijayan: No.

Aparna Pillai: movie making school.

00:07:49

Ananthu Vijayan: Um,

Aparna Pillai: Okay. AI filing school minimal master classes in film making craft. AI film school.

Ananthu Vijayan: I

Aparna Pillai: Looks like China is already making lot of Chinese micro dramas with the

Ananthu Vijayan: don't know.

Aparna Pillai: Fore! Foreign! Foreign!

Ananthu Vijayan: Um,

Aparna Pillai: Foreign speech. Foreign speech. You know how Fore speech.

Ananthu Vijayan: Uh, Evan.

Aparna Pillai: performance management.

Ananthu Vijayan: Uh,

Aparna Pillai: for

Ananthu Vijayan: right there it H.

Aparna Pillai: feedback. feedback.

Philip Samuelraj: Anandu. Hey,

Ananthu Vijayan: Hey.

Philip Samuelraj: good morning. Sorry I'm late. I got late to home. Uh and now I have to go to the airport after uh the

Aparna Pillai: Come on.

Ananthu Vijayan: Um

Philip Samuelraj: next. What do you have for me? Movie is ready.

Ananthu Vijayan: uh we have that story word actually there is scripting in progress.

Philip Samuelraj: Uh okay.

Ananthu Vijayan: My brother is working on it till the marriage thing. He has done the script

00:10:41

Philip Samuelraj: H how long do you think that will run till the marriage?

Ananthu Vijayan: 20 25 minutes maximum.

Philip Samuelraj: Oh, perfect.

Ananthu Vijayan: I think uh that is not as a story but it's

Philip Samuelraj: Can we review that quickly?

Ananthu Vijayan: written it's script actually I can share the

Philip Samuelraj: Uh okay, we'll find some. Okay,

Ananthu Vijayan: artifact uh

Philip Samuelraj: you shared a we'll review that in the meantime. First thing I wanted to ask is I think right now we can build a our own platform.

Ananthu Vijayan: hm

Philip Samuelraj: Okay. Same his field is basically just a good UX. You understand?

Ananthu Vijayan: H.

Philip Samuelraj: They are leveraging Gemini seed dance everything. They are hosted models only. They're not doing anything on top of that. Models themselves are upgrading really well. Okay.

Ananthu Vijayan: Mhm.

Philip Samuelraj: What we need to bring together is one place to get the video, mix the audio, do you understand? And get everything right.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Okay, that's the one part we need to get to.

00:11:48

Philip Samuelraj: We need to definitely try have one advantage. English is not default. It should come across. Next is Indian languages.

Ananthu Vijayan: H.

Philip Samuelraj: We should start something.

Ananthu Vijayan: This one.

Philip Samuelraj: Okay.

Ananthu Vijayan: H.

Philip Samuelraj: So I'm talking to Ranjit to get that working. We'll start iterating on that. This is just for you to think how we can design a really good platform.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Ranjit will talk to you. You walk through Hicksfield how we are doing it and what are issues and so on how we can do a version 1.0. Okay.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: And upon one more note we can do this fully looped engineering. I had a chat with Dharma. There should be a fully zero to one should be fully looped everything with the latest and greatest technology and driving it. Okay, that is one for a platform perspective. We need to announce that as well.

Ananthu Vijayan: H.

Philip Samuelraj: Think about this u an function zero.

00:12:43

Philip Samuelraj: Did you see that?

Ananthu Vijayan: Oh, no.

Philip Samuelraj: Um what is function zero or something else? I sent you a link, right? Um the view

Ananthu Vijayan: that uh that willing to post uh

Philip Samuelraj: and fountain zero

Ananthu Vijayan: exposed. Okay.

Philip Samuelraj: a startup fountain zero they uh fountain

Ananthu Vijayan: H found area.

Philip Samuelraj: zero they have only 2 minutes and then they have we have as requested for early access they are saying it's only for it's private right now I think we will we should do the same like fountain

Ananthu Vijayan: Okay.

Philip Samuelraj: zero one name. Hey, bringing this is like AI movies. What should be our trailer should be there? Let me actually uh upon you think about a name. You see this? It's a very simple site at this point. If you go to fountain zero, the site itself is not working properly. Okay, my fountain like this fountainzero.com. The site itself is not working properly. But this is it. Stories watch.

00:14:00

Philip Samuelraj: We should be only trailers. We can have movies trailers now. For now only our trailers. Okay. Our YouTube link should be there.

Ananthu Vijayan: Yeah.

Philip Samuelraj: My fountain if you think we log in. But hey, we we'll just keep it like nobody has access. Okay. If you see something, hey, like it should be uh uh sign up only. Well, and it should be a wait list. We should just get the weight list for now.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Why we need it is we need maybe techgorals.com or something like that or something else also a good name if you find really good name. You're like let's iterate about it. We'll find um I'll talk to Ranjit as well and then you three can have a we all can should have a daily stand up. Anu,

Ananthu Vijayan: Okay.

Philip Samuelraj: a me and Ranjit. After I talk to him, you'll see. We need to set up like this because we need to tell the story.

00:14:58

Ananthu Vijayan: H

Philip Samuelraj: Here's a we definitely lead like a GM person who can go and talk to you know PR people hey this is what we're doing this is what we're newly doing all of that okay we definitely need to move forward with the launch how can we review the story line till the marriage

Ananthu Vijayan: uh till that uh C scene I have the storyboard with me which I shared with you. Maybe we can review that other thing. I'll do it as a story board and we'll share it with you by tomorrow. The storyboard will be easy to understand like reading test will be very tough.

Philip Samuelraj: Okay. Um, so, uh, can you at least describe the story to me? I'll give you some feedback.

Ananthu Vijayan: Yeah, I'll share my screen. Actually like uh we thought of starting by showing the village of Anthony and Clara. So the movie will start with the village scene, a morning scene where we show the sea, the villages and all and three three childrens will be playing on top of their house.

00:16:36

Ananthu Vijayan: So one will be Anthony, one will be Clara and one will be Jason. So this is the child.

Philip Samuelraj: How do you get the names? How do you get the names?

Ananthu Vijayan: get the names in the sense.

Philip Samuelraj: Anthony, Clara, Jason, Jason, how did you get?

Ananthu Vijayan: Uh we just added the name Jason is that cousin like Fernando.

Philip Samuelraj: Okay.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Why can't we keep Fernando?

Ananthu Vijayan: Oh yeah, we can keep it Fernando.

Philip Samuelraj: Is it No,

Ananthu Vijayan: We just simply

Philip Samuelraj: but is if is it really um a name they use in Kerala?

Ananthu Vijayan: parano is very rare actually in Canada and Jason is common I think.

Philip Samuelraj: Come on.

Ananthu Vijayan: Yeah.

Aparna Pillai: You can tell Jason Phillip I have included you also in the movie.

Philip Samuelraj: Okay. Okay.

Aparna Pillai: Philip's friend is Jason.

Philip Samuelraj: No, no, no. You can have just any name. Okay.

Ananthu Vijayan: Yeah. So like while they play they will hear their mom yelling to them like uh they means like the those peoples are coming and they will hear the sound of boat actually.

00:17:55

Ananthu Vijayan: So Anthony will move towards the end of the terrace and he will see he will see to the ocean and he will see some boats approaching to the beach and from there these three childrens will run towards the ocean through their small village paths.

Philip Samuelraj: Yeah.

Ananthu Vijayan: So what we actually thought is we will establish that surrounding of where they are living uh how everything is working around them. So for that only we thought of keeping it like this. So the these three childrens will run and they will reach the beach area. Then they'll see the fisherman's coming.

Philip Samuelraj: Heat.

Ananthu Vijayan: They'll offboarding the fishes from the boats and all. So one person among them will be the father of Anthony. So he'll be having lot of fish with them. So Anthony goes to that father. He will take one fish from his father and he'll ask like something he will ask to his father. Then there will be conversation between his father and him and uh his father will hand over a cover of fish to him to give it to your mother.

00:19:08

Ananthu Vijayan: So uh Clara and Jason will also be with him at this phase. Uh and from this particular scene we'll match cut to the fried fish scene. So we'll bearly jumping to the house scene in the night. So from there there will be conversation between his mother him and his father about the CEO what's happening all around some some sort of conversation will be there and uh Andy wishes to go to see with his father. So he will ask to his father like can I come to the sea with you tomorrow his father will tell

Philip Samuelraj: Oh.

Ananthu Vijayan: like okay you can come but don't cry when we reach the middle of the sea some some conversation will be happening in there and uh they'll go to sleep so while sleeping after sometime when it's midnight and father will wake up he will uh wake up Anthony also and these two guys will go and sit in the beach area And his father will tell a small story about the beach to Andy like he some intimate scene will be happening there like he'll be explaining about about the sea some kind of things will be happening

00:20:23

Philip Samuelraj: Very good.

Ananthu Vijayan: there he has written some dialogues like like we are leaving with the sea some sort of dialogues will be there then on the next scene we'll be showing like anony going to the sea with his father and there will be a storm in the sea. H a boat will be singing then on a way like Anthony and his father will be falling to the sea.

Philip Samuelraj: Hey.

Ananthu Vijayan: So from here Anthony will wake up the real Anthony will wake up. It it it was a dream actually. So he'll make wake up and we'll reach the present. So from here like all what is happening is is happening on the present at his 28. So there will be conversation with between his mother and him.

Philip Samuelraj: It's

Ananthu Vijayan: Uh his mother mother will ask him to eat food and go out like this is the day in which Anthony should go to Sri Lanka to uh take some uh goods actually.

Philip Samuelraj: nice.

Ananthu Vijayan: So conversation regarding that will be happening between Anthony and his mother and from there Anthony will go to Claraara's area.

00:21:34

Ananthu Vijayan: So Clara will be taking tuition to the students at that time. Uh so Anthony will go to that area and he will stand beside the door.

Philip Samuelraj: That

Ananthu Vijayan: He will pro call Clara and Clara will come out of the uh that particular area and the conversation between Clara and Anne will be happening like when an will tell like he is going to Sri Lanka to take some goods. So Clara will tell like go

safe and come you will be there like some sort of conversation will be happening like that. Then uh after the conversation between them we'll show the harbor area. From harbor area like he will walk and go through the uru. So he he will board the uru and Jason not Jason the baron also will be working on the same wuru. Bam means that uh there was one person in the real ship now who is jealous of

Philip Samuelraj: Hey.

Ananthu Vijayan: Anthony. So that person will also be there in the ship actually but Anthony will be on time and Baron will be coming a little bit late.

00:22:43

Ananthu Vijayan: So the captain will be scolding him. We'll show some scenes like that to plan the ego. Then they'll start their journey through the sea. There will be conversation between Anthony and and the captain of the ship. So he will be the ashan and after some time when it's night we plan like having a song in like we'll be placing some songs to fill the area. Then there will be conversation between Anthony and the captain about what's what's happening in that area like this the area which they are going through is uh LTE conflict kind of area. So it will be some Yeah.

Philip Samuelraj: H we shouldn't be direct right the point is we shouldn't be it shouldn't be

Ananthu Vijayan: Yeah. H

Philip Samuelraj: direct we should never use the word LTD we should never use this and so on you understand right that will be unnecessary uh

Ananthu Vijayan: yeah. Yeah. Yeah.

Philip Samuelraj: problems but it can be like um a dangerous uh or something like that.

Ananthu Vijayan: H

Philip Samuelraj: That is fine.

00:23:55

Ananthu Vijayan: Then, After the travel like everyone will be asleep actually. Then after some time the captain will spot two boards in the spar and

Philip Samuelraj: Ah okay. So um till now an I have no idea about the uh what do you call it the conversation the depth of the conversation it's

Ananthu Vijayan: yeah.

Philip Samuelraj: in I can either in English or Tamil I can understand the depth of the conversation all of this should be very deeply meaning but not philosophical people should be talking in

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: a very casual fashion you understand it should be like dayto-day talks

Ananthu Vijayan: H.

Philip Samuelraj: only you Everything should feel like a day-to-day

Ananthu Vijayan: Yeah.

Philip Samuelraj: talk but deeply meaning and this should be the uh very happy path as well. Not we have sadness in the between vengeance and all this should be definitely fun.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: There should be an element of fun and joy in it. Huh?

Ananthu Vijayan: Yeah.

Philip Samuelraj: Like for example, and I was just thinking even um see Anthony goes over and talks to Clara and says like it should be like a fun conversation.

00:25:20

Philip Samuelraj: Uh it should not be like very serious. Oh, you're going then it's like the seriousness the first part I think except for the dads and conversation everything else should feel like a fun even the serious one should feel like

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: fun. You understand that right?

Ananthu Vijayan: Yeah. Yeah.

Philip Samuelraj: You tell your brother as well upon for your review as well. It should generally be very happy.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Okay, then go ahead.

Ananthu Vijayan: So uh so everyone will be ascape actually then they will see two boats approaching them.

Philip Samuelraj: Uh, never use the word LDA. Okay.

Ananthu Vijayan: Yeah. Yeah.

Philip Samuelraj: Hey, you got a board. That's all.

Ananthu Vijayan: Okay. Okay. Okay. And after some time uh after after traveling a lot like they'll see the sinking boat actually which is on fire. So Anthony will see this boat uh and Anthony will jump to the water to save that sinking person.

Philip Samuelraj: And that that to another part like it should be like no uh few people should look at it you're like whatever it is people people should not be bothered you understand should be

00:26:42

Ananthu Vijayan: Yeah.

Philip Samuelraj: um um the only person who actually happily jumps

Ananthu Vijayan: H. Yeah. It should be like some papers will be looking at it but they they won't be doing anything. Anthony and will get uh like Anthony and will see this and he will jump to the sea to save that person.

Philip Samuelraj: Exactly.

Ananthu Vijayan: Okay. Okay. Okay.

Philip Samuelraj: Okay.

Ananthu Vijayan: Yeah. So till this scene only we have made the story board.

Philip Samuelraj: Just give me one minute. Go ahead and go. This is the story board. But then till the wedding, what are the sequence of events from here till the wedding? You said you have the script ready, right?

Ananthu Vijayan: Yeah. Uh, I have the script actually, but I need to review it. My brother wrote it. So, if I tell it, it might not be correct actually.

Philip Samuelraj: Okay. Got it. So you review and then uh Aperna can

Ananthu Vijayan: Yeah.

Philip Samuelraj: take Okay.

00:28:18

Philip Samuelraj: Um, a few things, right? How do you think you're linking the this guy helping the LDT to this guy writing a complaint?

Ananthu Vijayan: So, Baham will be already in the boat actually.

Philip Samuelraj: Yeah. Yeah.

Ananthu Vijayan: So while he boards the boat uh like he was late a bit at that time itself like Bal has an ego towards Anthony and after boarding the boat also we saw in the storyboard we saw like Anthony and the captain sitting near to each other and they were talking about something. No. So that thing also will make uh Balan jealous about him like Anthony is closer to the captain and he knew that the sinking boat was LTD uh boat actually.

Philip Samuelraj: Okay. But then this guy saves. How are you connecting? See problem the whole part is this guy should they should write a complaint to the government, right?

Ananthu Vijayan: Yeah.

Philip Samuelraj: What means will it make it val uh you know real

Ananthu Vijayan: H But anyway after saving the person he will see that person giving the letter to Anthony in the real movie it's like that.

00:29:49

Ananthu Vijayan: No.

Philip Samuelraj: Okay. He will see but there should be some means right.

Ananthu Vijayan: I'll think about it actually.

Philip Samuelraj: I was thinking so this guy saves uh the LTD guy. Okay,

Ananthu Vijayan: Mhm.

Philip Samuelraj: they save the LT guy and that guy gives like a has a letter for his wife who is in one of the refugee camps in India.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Okay.

Ananthu Vijayan: Huh.

Philip Samuelraj: Okay.

Ananthu Vijayan: Huh.

Philip Samuelraj: And he gives to Anthony to say,"Hey, go give that." And then these guys drop him in the same island, Kativa. He says,"Leave me here. I'll go and take." So that is Antony's first

Ananthu Vijayan: H.

Philip Samuelraj: wish, first visit to Kativa. and at that time to the island and then um uh so he he says hey he says something maybe we'll tie it that one day this will be helpful or something like that or some something that is like Anony's first touch with the island what do you think

Ananthu Vijayan: That is okay actually.

00:31:34

Ananthu Vijayan: But we have the prosecutor now.

Philip Samuelraj: or yeah yeah so Then Balin gives an idea the same way this is in the original novel as well gives an idea saying hey gives an idea to who's that fern Jason or Jason here and say like hey you have an idea you are now

Ananthu Vijayan: Don't do something.

Philip Samuelraj: jealous right you have an idea let's write a letter saying this guy has not only saved an LT guy this guy has a letter from him that he's going to post or maybe like Balin says I will post the letter don't worry about it like to Anthony doesn't think anything about it. You understand? And then he says this is the letter this guy is carrying from an LDTE. He's acting like an LTE Korean.

Ananthu Vijayan: H.

Philip Samuelraj: So it gives very credible point and Anthony is branded like everything like anti-Indian he is helping and so on and that's the reason he is jailed. You understand? It's very credible.

Ananthu Vijayan: Yeah.

Philip Samuelraj: It's not like a movie like real real real life uh uh empower sounds

00:32:37

Ananthu Vijayan: Huh?

Philip Samuelraj: good.

Ananthu Vijayan: Uh, LTD guy wants to give this letter to his wife, you know. So, but in the in the real movie, it was given to the prosecutor's father. So, that's why the prosecutor is having an issue with Anthony.

Philip Samuelraj: Okay. No, I'm just trying to put some kind kind of a link.

Ananthu Vijayan: Uh okay. Okay. Okay.

Philip Samuelraj: So maybe there is some link but we cannot have the prosecutor's father because it's in Kerala.

Ananthu Vijayan: Yeah.

Philip Samuelraj: The connection won't match but it should be a strong link that Anthony can possibly be blamed.

Ananthu Vijayan: Okay.

Philip Samuelraj: Do you understand?

Ananthu Vijayan: Okay.

Philip Samuelraj: It cannot be a light link. It needs to be a strong link and this guy should be branded like he's doing something like spying activity against India something like that. Anthony should be branded that way.

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: Huh?

Ananthu Vijayan: Yeah.

Philip Samuelraj: Okay, sounds good. I have to jump for another meeting, but this is good. Let's keep this uh rolling. Okay,

Ananthu Vijayan: Okay. Okay.

Philip Samuelraj: awesome.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Keep it let's make it as fast as possible. Anto otherwise people will come up with a movie and all.

Ananthu Vijayan: Yeah.

Philip Samuelraj: See, even without anything our we have 2,000 plus watchers, people have given only good feedback. Even guys I thought will give bad feedback to us. Okay, that means we should go fast.

Ananthu Vijayan: Yeah.

Philip Samuelraj: Okay,

Ananthu Vijayan: Okay. Yeah.

Philip Samuelraj: awesome. See you for now.

Ananthu Vijayan: Yeah. Thank you.
